CPL528

is a contactless EMV coupler, compliant with ISO14443 types A, B, B', Sony Felica.

Its high performance RF interface enables use in such demanding applications as transport, bank and identity.

Contactless Coupler CPL528

Cost effective and easy integration

Main applications

- Transport
- Banking
- Identity
- Point of sale
- Logical / physical access control
- PC workstation add-on

Contactless interface

- Contactless smart cards ISO 14443 A/B/B'
- Contactless Mifare® cryptography
- C.ticket®
- Sony Felica

SAM interface

- 1 to 4 independent on-board SAM
- ISO 7816 T=0, T=1, High Baud rate capability
- Innovatron HSP protocol
- EMV2000 electrical compliancy

Standard Conformity (Pre-Certification)

- CE mark
- EMV Contactless 2.0.1 level 1 (only RF interface)
- RCTIF v4. Amd 1 Class A
